

Caro Capt. Malatesta,

Thank you so much for telling us about the **CAMOGLI SOCIETA' CAPITANI E MACCHINISTI NAVALI** website, which is splendid and I have already spent quite a long time reading through the history and stories that you have put there, myself.

It is for websites just like yours that we created the International Maritime Web Awards, as all the hard work that you have done to provide such full and interesting information about the Camogli mariners is done purely to inform people and to educate them. Often, the only thanks you get is perhaps some nice messages in your Guestbook. With the Maritime Web Awards, we try to go a little bit further, to express our thanks and appreciation for the important contribution you are making to the "maritime internet".

The website is full of information and is very easy to navigate around, with novel features like the moving panorama around the Society building and the short movie.

We are delighted to grant our GOLD award to your website.

Thank you again for telling us about such a lovely maritime website.

Saluti dall'Inghilterra, ciao.

Steve Harris
